

Lesson 6: Making Predictions

<https://www.youtube.com/watch?v=D6zd7m2aYqU>

Training Data:

<https://raw.githubusercontent.com/ajdapretnar/datasets/master/data/fruits-and-vegetables-train.tab>

Test Data:

<https://raw.githubusercontent.com/ajdapretnar/datasets/master/data/fruits-and-vegetables-test.tab>

Note: The Classification Tree widget is now called the Tree widget, Classification Tree Viewer is now called Tree Viewer.

Note: For now, you can skip the Logistic Regression.

Exercise: In Tree widget, play with the settings and see how it affects the decision tree.
